WELCOME

Welcome to Kgaka Safaris!

We invite you to discover the incredible experience waiting for you at our farm, located near the welcoming settlement of Alldays, about five hours drive from Johannesburg.

The name “kgaka” means “guinea fowl” in Northern-Sotho, the local African language. This reflects the rich wildlife you'll see here, including these wild birds in abundance.

At Kgaka Safaris, we cater to everyone—from absolute beginners to seasoned hunters. Whether you’re looking for a fun outing with friends, a memorable father-son adventure, or a unique experience as a woman hunter, this is the perfect place to create unforgettable memories.

Our expansive 17,000 acres of bushveld is roaming with plains game and fascinating carnivores like the brown hyena, cheetah, jackal, leopard, and lynx.

MEET THE TEAM

**The owners, Frans and
Isobel**

The farm has been in the family since 1938 years, with the current generation farming it for the past 28 years. Initially, it was primarily a cattle farm, but this changed when Frans joined the family and introduced hunting. The first hunt on the property took place in 1999, marking a new chapter in the farm's history.

**Professional Hunter,
Malan**

The owners' son grew up on the farm and has been hunting for as long as he can remember. Although he earned a degree in civil engineering, he chose to return to pursue his dream of becoming a farmer.

OUR HUNTING EXPERIENCE

We believe in hunting as a fair chase, defined as the pursuit of a free-ranging animal, showing natural behaviour or the inclination to escape from the hunter and being completely free to do so.

All sport-hunted animals should be sustained within an ecologically functional system and the search for a suitable trophy should be a chase without the guarantee of eventual success. The responsibility therefore remains ours, a burden we shoulder happily.

AVAILABLE SPECIES

BUFFALO is a formidable opponent, known for its sheer strength and unpredictable nature, which presents a thrilling challenge for even the most seasoned hunters.

Male weight = 500 to 900kg Female weight = 360 to 600kg

RW = 42" , SCI = 101"

KUDU , known as the grey ghost, is renowned for its stunning spiral horns and graceful appearance, making it a prized trophy for hunters seeking both challenge and beauty.

Male weight = 190 to 270kg Female weight = 120 to 210kg

RW = 53 7/8" , SCI = 121"

ELAND , the largest antelope species, offers hunters a unique challenge with its impressive size and remarkable agility, making for an exciting pursuit in the bush field.

Male weight = 590 to 1000kg Female weight = 400 to 600 kg

RW = 35" , SCI =77"

GIRAFFE are the tallest land animals but are incredibly elusive despite their height, often blending seamlessly into the bush with their unique coat patterns and quiet movements.

Male weight = 1100 to 1400kg Female weight = 700 to 1180 kg

ORYX a stunningly striking antelope known for its long, straight horns and bold markings. Renowned for their endurance and ability to thrive in harsh desert environments

Male weight = 180 to 210 kg Female weight = 140 to 180 kg

RW = 40" , SCI =81"

BLUE WILDEBEEST , with its distinctive curved horns and robust build, offers a thrilling hunting experience as it moves in large, dynamic herds across the African bush.

Male weight = 225 to 275 kg Female weight = 180 to 225 kg

RW = 28 4/8" , SCI =70"

WATERBUCK are large, robust antelopes known for their shaggy coats and the strong, musky odor they emit, which makes them easier to track but also more challenging to approach undetected.

Male weight = 225 to 270 kg Female weight = 150 to 200 kg

RW = 28" , SCI = 67"

ZEBRA known for their distinctive black-and-white stripes, which provide surprisingly effective camouflage by breaking up their outline in tall grass and confusing predators.

Male weight = 270 to 410 kg Female weight = 230 to 320 kg

RED HARTEBEEST have striking reddish-brown coats with distinctive facial markings. Their excellent eyesight allows them to spot potential threats from great distances

Male weight = 120 to 160 kg Female weight = 100 to 140 kg

RW = 23" , SCI = 62"

IMPALA are medium-sized antelope known for its incredible leaping ability, clearing heights of up to 10 feet and distances over 30 feet to escape predators.

Male weight = 53 to 76kg Female weight = 40 to 53 kg

RW = 23 and 5/8" , SCI = 52"

WARTHOG Known for their quick sprints and zigzagging runs, warthogs can be challenging to hunt, often darting into burrows or thick cover

Male weight = 60 to 100 kg Female weight = 45 to 70 kg

RW = 13" , SCI=29"

BUSHPIG often spotted at dusk or dawn in dense thickets. Known for its aggressive nature when threatened, it has sharp tusks and a strong build, making it a challenging but rewarding hunt

Male weight = 46 to 82 kg Female weight = 48 to 66 kg

RW = 5 4/8" , SCI=12"

GREY DUIKER is part of the "Tiny Ten," they rely on their natural camouflage and swift reflexes to stay hidden and evade predators.

RW = 4 4/8" , SCI=11"

OTHER AVAILABLE SPECIES

STEENBOK As part of the "Tiny Ten," the steenbok is a small, graceful antelope known for its incredible alertness and ability to vanish swiftly at the first sign of danger.

RW = 4 4/8" , SCI=8"

BROWN HYENA a rare and elusive predator, presents a unique challenge for hunters. Pursuing this shy, nocturnal animal demands exceptional patience, stealth, and a keen understanding of its behavior

BABOON Baboons are highly intelligent and live in large, complex social troops, making the challenge of tracking them particularly intriguing.

JACAL is a clever and adaptable predator, skilled in both scavenging and opportunistic hunting. Often working in pairs or small family groups, they are highly resourceful and capable of thriving in diverse environments

MONKEY Monkeys present a distinct challenge for hunters due to their agility, sharp intelligence, and acute senses, which enable them to quickly detect movement and evade danger.

ACCOMMODATION

Accommodation consists of comfortable rooms with ensuite bathrooms adjacent to the owner's farmhouse. Bathrooms have hot and cold running water and laundry is done daily. All meals are catered for. In the morning before the hunt, coffee ,tea, rusks and cereals are served. Cooler boxes are packed with soft drinks and snacks for the hunt.

Brunch is served at about 11:00 am daily. Dinner is usually prepared over an open fire and enjoyed outside under Bushveld night skies, ensuring a true African experience. All hunters have to inform Kgaka Safaris on booking regarding food and beverage preferences, allergies, medication and physical disabilities which may have an influence on the hunt.
